Profile Summary

Organize and results-driven Statistician, Data Analyst, and MEAL professional with over 2 years' hands-on experience in humanitarian and government programmes. I specialize in data and systems management, monitoring frameworks, compliance reporting, and programme quality assurance, bringing both technical depth and practical field insight. I design and maintain MEAL systems that work in practice from structuring indicators and results frameworks to ensuring data integrity and user adoption. My expertise spans interactive dashboards (Power BI, R Shiny), structured datasets (SQL, Excel, SPSS), and digital data collection survey platforms (Kobo, ODK, SurveyCTO). I am recognized for translating MEL concepts; results frameworks, indicators, theories of change into usable system designs that strengthen programme quality, accountability, and learning. Beyond the technical, I thrive in capacity building and stakeholder engagement, mentoring staff and supporting inclusive initiatives such as school feeding programmes. At my core, I turn complex datasets into actionable insights that drive decisions, improve governance, and elevate programme impact.

Leadership and Attributes

- **I lead with impact:** Proven track record of managing cross-functional teams and driving projects that deliver measurable results.
- **I make data accessible:** Skilled at breaking down complex analyses into clear, compelling insights for non-technical audiences.
- **I work with integrity:** Known for accountability, reliability, and a strong professional ethic that builds trust across teams.
- **I grow continuously:** A fast learner who embraces new systems and technologies, adapting quickly to evolving organizational needs.

Core Competencies and Technical Skills

- **Monitoring and Evaluation Systems:** I design and implement results, logical and M&E frameworks, indicators, and QA protocols, ensuring MEAL systems are practical, compliant, and consistently reliable.
- **Survey Design and Data Collection:** I build and deploy digital surveys using KoboToolbox, ODK, and SurveyCTO, train enumerators, and manage end-to-end data validation for robust databases.
- **Data Analysis and Insights:** I apply advanced skills in SQL, R, Python and Excel to deliver predictive analytics, KPI development, and impact assessments that drive evidence-based decisions.
- **Business Intelligence and Visualization:** I create interactive dashboards in Power BI and R Shiny, integrate CRM systems like Salesforce, and produce donor-ready reports that communicate impact clearly.
- **Research and Governance:** I design research studies, draft policy briefs, and ensure safeguarding and data protection frameworks are embedded in programme reporting and governance.
- **Capacity Building and Collaboration:** I lead staff training on MEAL systems and data analytics strengthening organizational learning and stakeholder engagement while promoting effective communication across platforms.
- **Adaptability and Continuous Learning:** I embrace new tools and evolving systems quickly, continuously expanding my technical and leadership skills to stay ahead of organizational needs.

Work Experience

Programme Quality Assurance Officer - Mary's Meals International

June 2024 – Nov 2025

- I designed and implemented monitoring & evaluation systems, including results frameworks, logical frameworks, indicators, and QA protocols, ensuring MEAL systems were practical, compliant, and consistently reliable.
- Developed digital mobile data collection tools (ODK, KoboToolbox, SurveyCTO) that enabled real-time data collection from 650+ schools, reducing reporting lag by 30%.
- Led advanced data analysis and research oversight, identifying programme gaps and recommending corrective actions that improved delivery efficiency over successive quarters.
- Conducted monthly database reviews and validated data (100,000+ records) using SQL, Excel, and Salesforce, conducting routine data quality reviews to ensure 100% SOP compliance and safeguard sensitive information.

- I strengthened programme efficiency through weekly field audits (4 per week) and monthly desktop reviews, elevating data quality standards and ensuring operational compliance across all programme sites.
- Built and scaled dashboards in Power BI, R Shiny, and Salesforce, monitoring KPIs across 650+ schools, ensuring service levels and operational goals were consistently achieved.
- Mentored 4 interns and trained 50 staff members in MEAL systems, statistical workflows, dashboard development, and automated reporting, embedding a culture of data-driven decision-making.
- Produced quarterly donor reports and evidence-based recommendations that influenced programme strategies and secured continued funding.
- Expanded technical expertise in Python, LaTeX, and Microsoft Dynamics 365, while strengthening leadership skills to meet evolving organizational needs.

Programme Quality Assurance Intern – Mary’s Meals International

Nov 2023 – May 2024

- Supported QA strategy by conducting monthly database reviews, directly enhancing data integrity and strengthening programme accountability.
- Carried out weekly field audits (2 per week) and monthly desktop reviews, improving data quality and achieving 100% SOP compliance across programme operations.
- Collaborated with cross-functional teams on monthly basis to troubleshoot delivery inefficiencies, leveraging Salesforce and Outlook to streamline workflows and reduce delays.
- Developed and deployed monitoring tools in SurveyCTO, streamlining data collection workflows and improving the timeliness of programme data submissions by 20%.
- Consistently delivered tasks with reliability and precision while expanding technical expertise in Python, R, SPSS, Google Docs, and Google Sheets, alongside strengthening interpersonal and collaboration skills.

Corporate Planning and Strategy Intern – NG-CDF Board

Sept 2021 – Jan 2022

- Reviewed and analyzed departmental performance contracts using Excel and Power BI to assess KPIs.
- Evaluated development projects in 10 constituencies using SPSS and Google Sheets, ensuring timely execution.
- Demonstrated attention to detail and reliability in supporting strategic planning tasks.
- Delivered additional tasks with reliability and attention to detail while continuously learning new technical skills in R, SPSS, LaTeX, and Tableau, and soft skills in collaboration and teamwork.

Certifications and Trainings

1. Monitoring, Evaluation, Accountability & Learning (MEAL) – Humanitarian Leadership Academy Feb 2026
2. Certified Internal Auditor – The Institute of Internal Auditors (IIA) Jan 2026 – Present
3. Lean Six Sigma Black Belt (CLSSBB) – Alison Oct 2025 – Present
4. Safeguarding & Data Protection – Mary’s Meals Kenya

Education Profile

1. **Jomo Kenyatta University of Agriculture and Technology** **Aug 2018 - Dec 2022**
BSc Statistics - Second Class Honors (Upper Division)
2. **Homa Bay High School** **Feb 2014 - Dec 2017**
Kenya Certificate of Secondary Education – Grade: B+, 70 points.
