

Programme Quality Assurance Report

Reporting Period: Quarter 2

Date: 31st June 2026

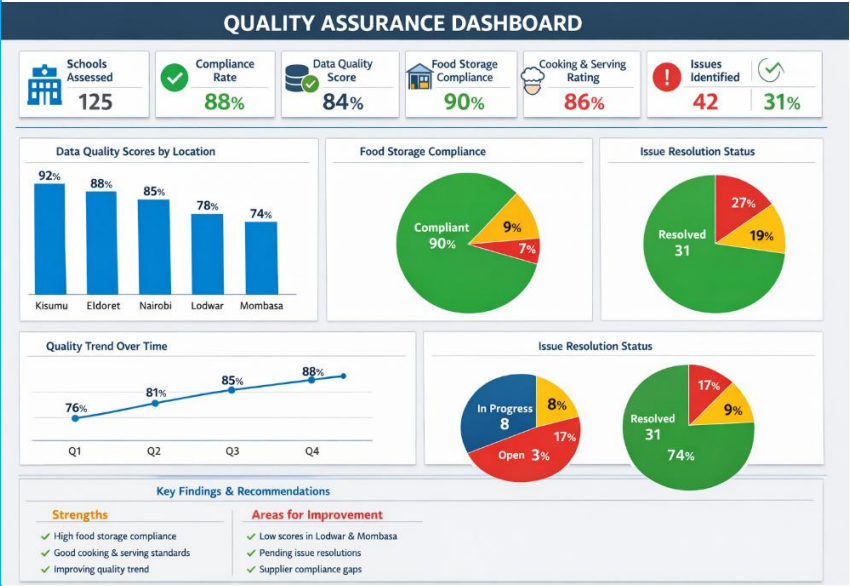

Prepared For: Maurice Juma

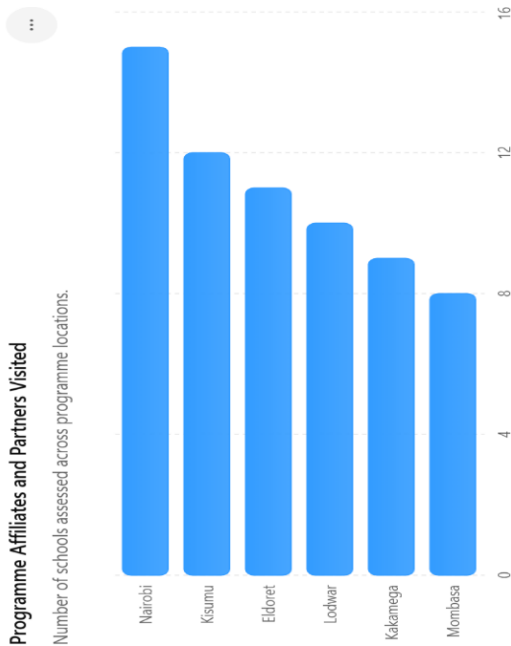

Executive Summary

This report details the findings of the recent Quality Assurance (QA) assessment conducted on the Mary's Meals school feeding programme. The assessment focused on evaluating the compliance of the school feeding delivery model and key quality metrics across all visited locations. Our findings indicate a [strong/satisfactory/areas for improvement] level of adherence to established standards, with particular strengths in [mention key strengths]. Opportunities for enhancement have been identified in [mention key areas for improvement], which are elaborated upon in the subsequent sections. The quality metrics dashboard provides a snapshot of performance across critical areas.

Quality Metrics Dashboard

Assessment Scope and Methodology

Assessment Methodology

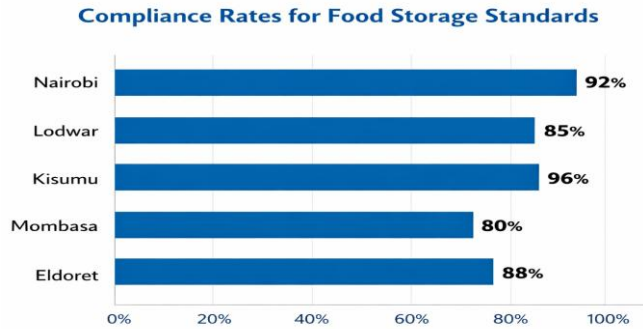

Component	Description
On-site Inspections	Direct observation of feeding operations
Document Review	Procurement, storage, and distribution records
Stakeholder Interviews	School staff, volunteers, community
Data Analysis	Review of quality metrics and performance data
Scope Limitations	Wajir, Gerissa and Moyale. Security reasons

School Assessment Findings

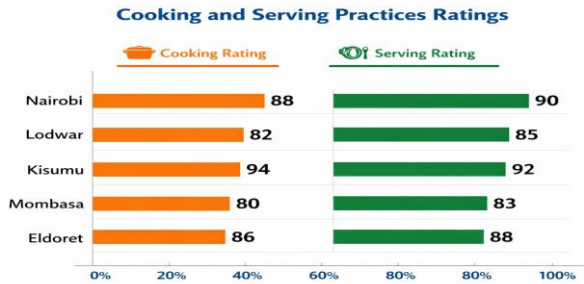

Data Quality Scores by Location

Location	Data Quality Score	Programme Aff./Partners
Nairobi	85	Affiliate Name
Lodwar	78	Affiliate Name
Kisumu	92	Affiliate Name
Mombasa	74	Partner Name
Eldoret	88	Partner Name

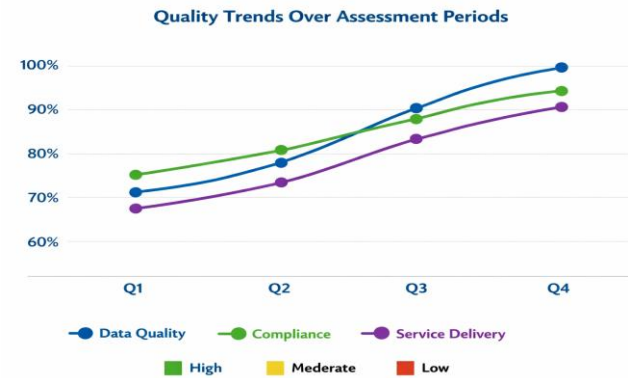

Food Storage Standards Compliance

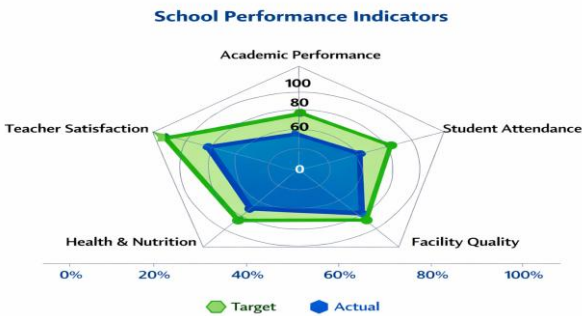

Cooking and Serving Practices Ratings

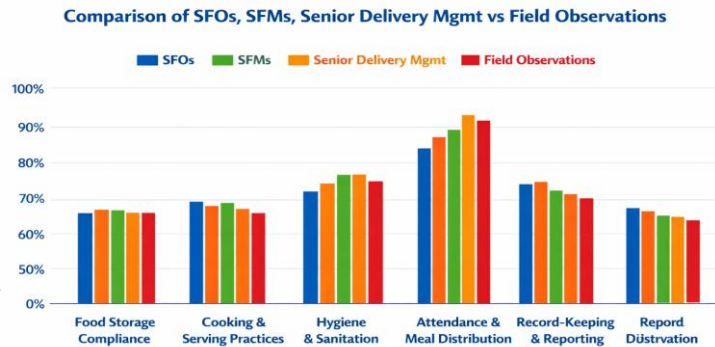

Quality Trends Over Assessment Periods

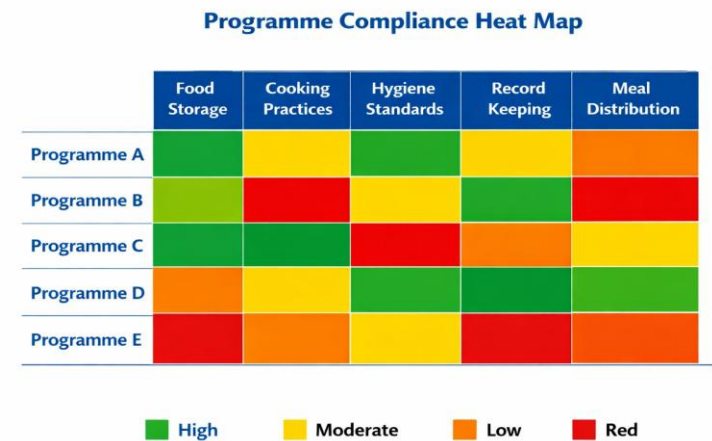

Multi-dimensional School Performance Indicators

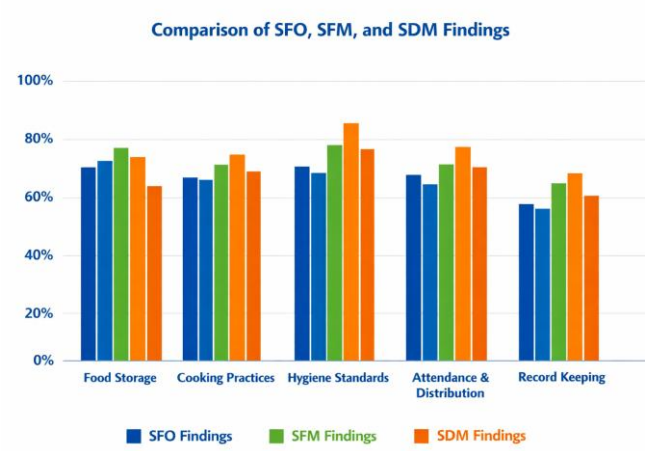

School Monitoring Checklist Analysis

Compliance Levels Across Programmes

QA Function Effectiveness and Supplier Checks

Food Production Premises Inspection Results

(Placeholder for corporate stacked bar charts presenting results from food production premises inspections.)

Data Quality Assessment

(Placeholder for clean pie charts showing accuracy metrics for data quality assessment.)

QA Function Effectiveness

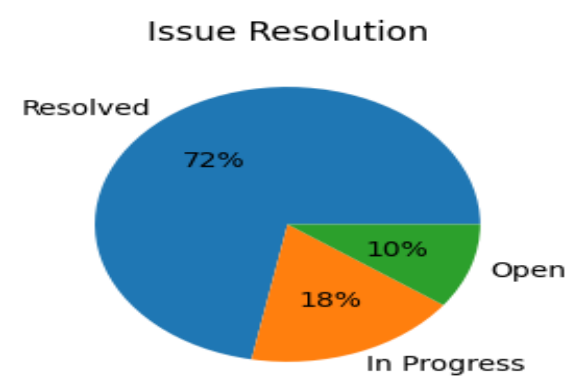

(Placeholder for clean gauge charts and performance scores assessing the effectiveness of the QA function.)

Supplier Warehouse Compliance Checks

(Placeholder for professional donut charts illustrating supplier warehouse compliance.)

Issue Resolution and Training

Issue Identification and Resolution Tracking

Training and Guidance Activities Summary

(Placeholder for tables summarizing training and guidance activities conducted.)

Corrective Measures Implementation

(Placeholder for charts illustrating the implementation of corrective measures.)

Recommendations and Follow-Up

Post-Assessment Recommendations

- Recommendation 1: [Description of recommendation]
 - Priority: [High/Medium/Low]
 - Responsible Party: [Name/Department]

Follow-Up Actions Timeline

(Placeholder for a timeline outlining key follow-up actions and their deadlines.)

- **Recommendation 2:** [Description of recommendation]
 - **Priority:** [High/Medium/Low]
 - **Responsible Party:**
[Name/Department]
(Continue with other recommendations)

Periodic QA Status Dashboard

Delivery and Logistics Quality Metrics
(Placeholder for charts and data representing delivery and logistics quality metrics.)

Stewardship and Simplicity Indicators
(Placeholder for indicators related to stewardship and simplicity in programme operations.)

Best Practices Implementation Scores
(Placeholder for scores reflecting the implementation of best practices across various programme areas.)

Conclusion

The Mary's Meals Programme continues to demonstrate a strong commitment to quality and efficiency in its school feeding operations. This report highlights areas of excellence and provides actionable recommendations for continuous improvement. By addressing the identified areas, Mary's Meals can further enhance its impact and uphold its mission of providing nutritious meals to children in need.
