PROFESSIONAL SUMMARY

Statistician, Data Analyst, and MEAL professional with 2+ years driving programme oversight, digital reporting systems, and data quality assurance for a 650+ school humanitarian feeding programme and government projects across Turkana and Nairobi Counties, Kenya. Directly responsible for project monitoring, field audits, data quality assurance, SOP compliance, and reporting, with direct, hands-on experience **building and adapting reporting tools**, deploying mobile data collection tools/systems (KoboToolbox, ODK, SurveyCTO), and administering **Salesforce dashboards and reporting** to track KPIs and support decision-making; currently building further skills in **Salesforce integration**. Has **trained 50+ programme and field staff on data tools, protocols, and workflows and the use of Resco and Salesforce**, and regularly **troubleshoots Resco syncing issues** to keep field-to-system data flow reliable. While serving on the QA side of a 650-school operation, **identified a disconnect between the delivery team's and the QA team's data collection tools that was producing conflicting impressions and reporting between the two sides**, and worked to flag and resolve it; direct, practical experience with exactly the kind of cross-team reporting alignment this role requires. **Validates 200,000+ records monthly using SQL, Advanced Excel, and Salesforce**. Cuts reporting lag by 40% through real-time monitoring deployment, while documenting lessons learned and beneficiary feedback to strengthen accountability, and coordinates with partners, stakeholders and field officers in multicultural, donor-funded settings. Comfortable acting as a technical point of contact between field, country, and international teams, with safeguarding and data protection embedded throughout.
